

Deep in my Heart

The Karma Factory Music & Lyrics © 1997, 2023 Scott Lippincott, Nursery Rhymes Music (BMI)

Some people say I'm just a dreamer
Unless somebody tells me I'm awake
Some people know I'm a believer
The only real dreams are the one's you make

Deep in my heart I know
Things will get better
Deep in my heart I know
I was to blame
Deep in my heart I know
The moments are different
And I know you'll always want
to stay the same

I don't believe all the things you tell me
Just in case they might turn out to be true
It's not that I think you are lying
I just don't like to get the truth from you

Deep in my heart I know
Things will get better
Deep in my heart I know
I was to blame
Deep in my heart I know
The moments are different
And I know you'll always want
to stay the same

You know what you won't tell me
And all the things you hide from me
It doesn't matter it makes no difference
Sometimes you don't need eye to see

Deep in my heart I know
Things will get better
Deep in my heart I know
I was to blame
Deep in my heart I know
The moments are different
And I know you'll always want
to stay the same
