

## Light On

*The Karma Factory Music & Lyrics © 1999, Kenneth David, Flamesong Music (BMI), Scott Lippincott, Nursery Rhymes Music (BMI)*

It's a light I see  
Getting closer to me  
It's the November wind  
That cuts me 'till I bleed  
And it shines through stone  
And it cuts like glass  
And it laughs out your name  
As it slides on past

Light on see me through  
Come to me, I'll come to you  
Cut away where I lie  
Play on path's are true  
Light on pass me through  
I cannot hide away from you  
Timeless like the tide  
Go on into you

And it breaks me  
Strong as bone  
As a century more has passed  
and it has come and gone  
And it hasn't left, no  
If anything it's here  
And it hasn't fled in jealousy  
Greed or fear

Light on see me through  
Come to me, I'll come to you  
Cut away where I lie  
Play on paths are true  
Light on pass me through  
I cannot hide away from you  
Timeless like the tide  
Go on into you

When you're around me  
You're wondering  
Have I left have I gone  
And I want to know  
And want to know  
Oh you're just like me  
You're just like me  
Can you be there  
Well can you be there  
And I want to, want you tonight  
Can you be me  
Just for one moment  
And I wait....

Light on see me through  
Come to me, I'll come to you  
Cut away where I lie  
Play on paths are true  
Light on pass me through  
I cannot hide away from you  
Timeless like the tide  
Go on into you  
Guide on paths are new  
Light on, see me through
